Typical Spanish village Townhouse, semi renovated, located at only 50 meters of the centre of the Town. The distribution briefly consist in: ground floor, Huge hallway with the original old water well, double bedroom with street window, separate living room, single bedroom with fitted wardrobe, small pantry, fully fitted kitchen with diary dining room and living room with burning fireplace, shower room, uncovered courtyard and the old two floors stable converted into a big store room at the ground floor and a huge bedroom with fitted wardrobes and exterior roof terrace at the first floor. In this two restored floors we can build so easily an independent guest complete apartment. From the dining room the staircase gives access to the empty first floor where we could build 2 or 3 more bedrooms with an extra family bathroom. The ground floor of the main

house was restored 20 years ago together with the old stable but it will be necessary to change the roof, kitchen and restore the first floor. The viewings are high recommended to appreciate its potential.
